Career Objective

I aim to build my career in Artificial Intelligence and Data Science , Seeking an Opportunity to apply my skills in Python , ML and full Stack development to build innovative solutions with utmost excellence.

Education Qualification

Pursuing Bachelor Of Technology in Artificial Intelligence And Data Science From Arya College Of Engineering And IT Affiliated To Rajasthan Technical University (2023 To 2027) With **8.1 CGPA**

Senior Secondary(12th) With **83%** From Govt. Sr. Sec. School Sear , Bharatpur

Secondary(10th) With **93%** From Aadarsh Vidya Mandir Sr. Sec. School Keshav Nagar , Bharatpur

Technical Skills

Languages: C++, Python

AI/ML & Data Science: Pandas, NumPy, Scikit-learn, Matplotlib, Jupyter Notebook, EDA, Data Preprocessing

Web Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), HTML, CSS

Tools & Platforms: LeetCode, Git, GitHub, Linux

Data Structures & Algorithms: C++ (Striver's A2Z Sheet)

Certifications

Red Hat Certified System Administrator — RHCSA (May 2025)

Data Science Internship At Sysslan IT Solutions (Online)

Frontend Web Development with React JS From Grras Solution Pvt. Ltd.(Online)

Experience

Data Science Intern — Sysslan IT Solutions (Apr 2026 – May 2026)

Built an end-to-end machine learning pipeline in a 6-stage Jupyter Notebook to predict train journey times from real transit data, achieving an R² score of 0.70 using Linear Regression. Performed data cleaning, feature engineering, and exploratory data analysis (EDA) on the internship dataset to improve model input quality and support performance evaluation.

Frontend Development Intern (React.js) — Grras Solutions Pvt. Ltd. (May 2026 – Jul 2026)

Completed an internship in React.js with Frontend Development, with self-driven learning. Built responsive UI components and applied React fundamentals to real front-end development tasks.

Projects

Retail Sales Forecasting with Time-Series Analytics

Built a machine learning system to forecast retail sales, comparing LightGBM, Prophet, and ARIMA models with feature engineering like lag values, rolling stats, and seasonality trends. Created an interactive Streamlit and Plotly dashboard to visualize forecasts and support inventory and business decisions.

Insect Catching Game — Interactive Web Game

Tech Stack JavaScript , HTML5, CSS3

Designed and developed an interactive Insect Catching Game featuring real-time object movement, score tracking, and responsive controls. I implemented game logic and user interaction mechanisms to deliver an engaging and smooth gameplay experience.

Extra Curricular Activity

Participated In

Hack Arya Verse Hackathon 2025

Achievement And Award

Won Gold Medal In Bgmi Esports At College - 2024
